IP Transit | Colocation | Managed Infrastructure

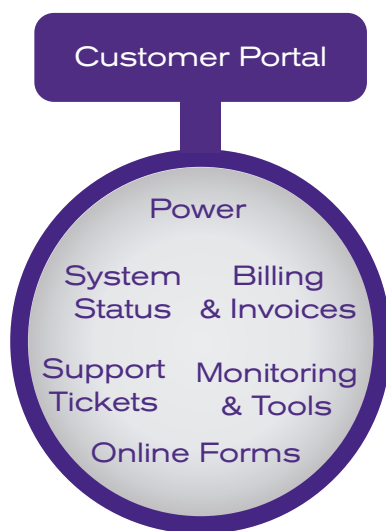

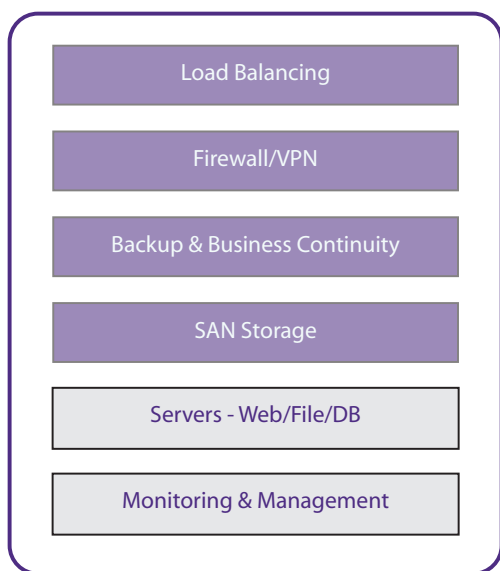

## UnitedLayer On-Demand Infrastructure™

As a specialist in providing internet infrastructure, we know how difficult it can be to find the right “managed” solution. The usual choices leave you on the hook for management and leave you limited options if you run into problems or have questions.

UnitedLayer’s platform approach to their On-Demand Infrastructure™ offering brings a new spin to conventional grid/cloud computing. As any company can tell you, the latest and greatest hardware is useless without the right expertise to look after it. With our flexible infrastructure, you can choose the level of management you need for your business and budget.

Contact us today to see how UnitedLayer’s On-Demand Infrastructure™ can help your business.

### On-Demand Infrastructure™ Platform
