## UnitedLayer Storage Services

Our Storage environment leverages a robust Compellent SAN platform with multiple performance tiers for a completely customized solution. From basic RAID storage to business continuity strategies utilizing multi-site deployments, we have a solution that can meet your recovery time objective and budget.

### Agnostic Infrastructure with Scalability in mind

- Multiple storage technologies available including SATA, SAS, FC, SSD
- Managed environment allows simple addition of back-up functionality to SAN data
- Thin provisioning allows fast deployment and simple volume expansion for a variety of storage or backup environments

### Unique Balance of Performance and Redundancy

- Distinct performance tiers allow you to pick the best balance of I/O and budget needs
- SAN supports virtualized software instances for use in condensed server environments
- RAID architecture available for local or distributed business continuity solutions

### Flexible and Customizable Solutions

- Agentless backup with Compellent's Instant Replay technology brings control to your organization's disaster recovery strategy
- Multi-site options available to ensure compliance with your organization's disaster recovery strategy

## UnitedLayer At-a-Glance

### Support

- 24x7 Live contact
- Support inquiries handled with our Technocratic Oath in mind

### Flexibility

- Custom hardware options
- Dedicated management of Unix and Linux servers
- Ability to customize and/or upgrade at any time

### Services

- Router/Switch management
- Load Balancing solutions
- Firewall configuration
- Backup/Business continuity
- Email hosting
- Hosted Spam/AV filtering

### Facilities

- Multi-factor authentication and security
- HVAC Systems N+1 Minimum
- Fully redundant power
- Liebert UPS systems supply conditioned power
- Best of breed fire suppression

### Network

- Cisco 65xx series routing gear
- Multiple 10Gb connections
- Blended Transit from multiple Tier-1 bandwidth providers
- Extensive peering fabric
