Where UnitedLayer Helps Healthcare Organizations

Key solution areas for providers, payers, life sciences, medical devices, and digital health ecosystems.

Protect Patient Data

Support HIPAA-aligned infrastructure, secure access controls, and encryptions.

Modernize Clinical Applications

Run EMR, EHR, PACS, RIS, and clinical systems on secure private cloud.

Enable Telehealth & Digital Care

Deliver telehealth experiences with resilient, low-latency infrastructure.

Manage Exploding Healthcare Data

Store and protect imaging, genomics, device, and application data at scale.

Strengthen Cybersecurity

Protect critical systems with zero-trust security, monitoring, and cyber resilience..

Ensure Business Continuity

Keep healthcare systems always available with DRaaS, failover.

Optimize Costs & IT Operations

Improve utilization and reduce IT complexity with intelligent cloud operations.

Accelerate Innovation

Leverage AI-ready infrastructure for medical analytics and better care outcomes.

Outcomes That Drive Healthcare Forward

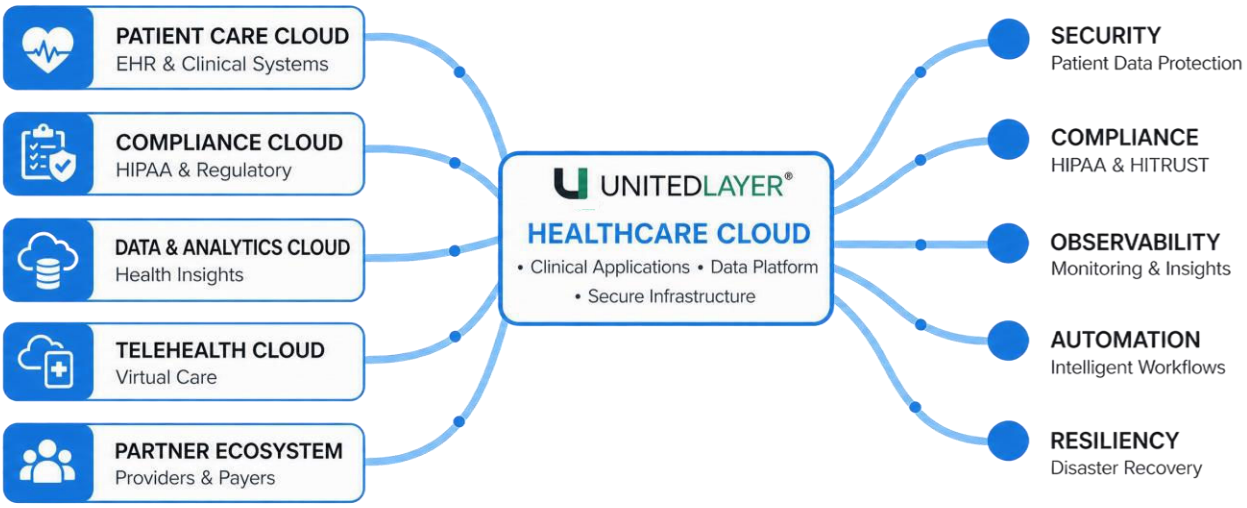

- Faster Clinical Innovation
- Audit Readiness
- Stronger Resilience
- AI-Ready Healthcare

Public

Healthcare Cloud Capabilities

A secure, scalable, and compliant platform architecture designed for healthcare workloads.

Software-Defined Private Cloud

99.999% N+M availability, software-defined infrastructure, on-demand Storage, and IP-restricted security.

Hybrid Cloud Infrastructure

Secure private cloud spanning 30+ regions, 175+ edge locations, with managed services and integrated disaster recovery.

UPC Accelerated

GPU-optimized private cloud for AI-driven healthcare analytics and automation, with predictable managed economics.

UPC Built-in Intelligence

Unified platform for observability, centralized management, automation, and real-time monitoring and cost optimization.

Healthcare Case Study

Provided a Secure, Compliant Infrastructure Platform for Healthcare Data, Applications, and Devices

Business Challenges

- Needed a high-performance private cloud infrastructure.
- Required support for healthcare data and connected devices across multiple sites.
- Needed high availability, strong data protection, and seamless connectivity.
- Needed a solution to store large scale patient data.
- Wanted to support growth and digital transformation initiatives.

Solutions Delivered

- Deployed a highly secure infrastructure platform using United Private Cloud®
- Implemented secure connectivity and Zero Trust principles.
- Enabled high availability, backup, and disaster recovery.
- Provided highly secure and scalable storage pools for retaining patient data.
- Provided 24/7 monitoring and managed operations.

Healthcare Transformation Priorities

HIPAA – Aligned Controls

Security

Always – On Availability

Data Protection

Relevant Capabilities

- **Security & Compliance**
- **High Availability**
- **Operational Efficiency**

Scale Smarter. Secure Faster.
