

Stop paying for DR you never activate.

Industry's first on-demand DRaaS for the enterprise private AI era. Replication stays warm and your RPO/RTO tiers stay committed — **heavy compute bills only when you activate DR or run a drill.**

- Replicate
- Activate
- Recover
- Prove

PICK THE TIER EACH APPLICATION DESERVES

Platinum	Gold	Silver
RPO	RPO	RPO
Near-zero	< 15 minutes	< 1 hour
RTO	RTO	RTO
15 minutes	1 hour	4 hours

THE SOLUTION SUITE

AI-Ready Resilience
Production-grade DR designed for the entire enterprise AI stack.

Model registries & VLMS

Training & inference data

AI delivery continuity

Immutable Defence
Cyber resilience that protects integrity, so recovery restores clean.

Cyber recovery

Immutability by default

Clean-room recovery

Strategic VMware Exit
A controlled bridge away from legacy VMware environments.

Seamless migration

Migration-ready DR

Modern hypervisors

Powering Private AI
DR as a foundational layer of enterprise private AI architecture.

DR built-in

Observability built-in

AI-powered recovery

BUILT FOR ENTERPRISE RESILIENCE

Elastic cost model
Avoid idle DR infrastructure. Pay primarily for storage and invoke on-demand services as required.

99.999% HA compute
N+M high-availability compute designed to keep running under component failure.

Secure multi-tenancy
Isolated environments on shared infrastructure with tenant isolation and security controls.

On-demand services
Virtual compute, firewalls, load balancers, P2P connectivity, and BaaS — from one vendor.

Global availability
Delivered from Frankfurt, Germany and Santa Clara, California.

24x7 support
Continuous monitoring and expert support ensure readiness during DR events.

>30%
YoY saving vs hyperscale

50%
Better than on-premises DR

70%
Better than private cloud DR

30+
Compliance standards

Let's build your continuity plan.

Speak with a specialist, or ask us to model your RPO/RTO tiers and DR cost.
